

level 1 ISOLATORS

Heavy Duty Battery Isolators

Prolec Enclosures manufacture a range of Heavy Duty Battery Isolation Enclosures. We have 2 standard products in this range, a single switch isolator and a dual switch isolator. All standard battery isolation enclosures are fitted 'Bosch' 250A double pole master switch and pad-lockable lockout isolators.

We fabricate heavy duty battery isolation enclosures for many different applications including pump skids, bull dozer's, haul trucks, drilling rigs and many other heavy industrial vehicles, we are also happy to accommodate any custom requirements upon request.

Enclosure Size (H x W x D)	Material	Order Code
300 x 300 x 300	#304 SS	BISO303030
450 x 300 x 300	#304 SS	BISO453030

All battery isolator enclosures are fitted with heavy duty industrial gaskets to prevent un-wanted water and dirt ingress. The enclosures are designed to meet IP65 specifications. Enclosures are also fitted with stainless steel padlockable over centre latches.

Custom enclosures to suit any application.
