

HEAVY DUTY MINING JUMPER LEADS

P : 02 4964 9660 **W** : www.prolecaustralia.com.au **E** : sales@prolecaustralia.com.au

Prolec's Heavy-Duty Mining Jumper Leads are engineered specifically to be used in mining and other industrial environments to jump-start heavy machinery and vehicles. Our jumper leads are proudly manufactured in Australia and are designed with thick, double-insulated cables to handle high currents safely.

The heavy-duty Mining Jumper Leads are available in 5 or 10-metre-long cables with CAT-type plugs on each end. The cables are secured together with heavy-duty cable ties and glue-filled heat shrink to withstand harsh environments. Rated to 250 Amps continuous current, these leads deliver reliable power for jump-starting heavy machinery and vehicles.

CAT-MJL-5M	5 Metre Heavy-Duty Mining Jumper Lead	250Amps, w/CAT Type Plug
CAT-MJL-10M	10 Metre Heavy-Duty Mining Jumper Lead	250Amps, w/CAT Type Plug
